Ron Saxton has the Wrong Priorities

As Governor, Republican Ron Saxton says he would repeal Oregon's new clean car emissions standards designed to improve our air quality. The Oregonian, 9/20/06

Saxton has no plan to promote clean, renewable energy resources and even calls solar and wind energy projects “gimmicks.” Eugene Register-Guard, 8/23/06

Why?

Because Ron Saxton is on the side of big corporate polluters, who've donated more than \$2 million to his campaign. www.candidatesforsale.com/saxton

Ron Saxton The Wrong Priorities For Oregon

Saxton already told his big business backers—
“to be really blunt with you, I’m not running for Governor to deal with global warming.”

The Oregonian, 9/20/06
